

MORICO®

AUTOMATIC CARD INSERTER

LI-310/LI-311/LI-100

LI-310/LI-311 is designed to insert product instructions, leaflets, or cards one by one automatically into a carton or package. All you need to do is to set these package inserts in the feeding stacker, and all the rest of manual workload will be reduced.

This automatic inserter can handle folded materials, round or irregular shaped cards, paper or plastic stickers.

Applicable industries are confectionary and pharmaceutical, etc. This unit is also useful to prepare direct mails.

Features

- Elevator-style Hopper enables to insert package inserts smoothly to the last sheet regardless of its weight.
- Alarm beep sound alerts when the stack in Hopper becomes low.
- LI-310/LI-311 can be interlocked by insert timing signal with various types of packing machines.
- Due to the shield bearing for rotating shafts, LI-310/LI-311 has long useful life and no need of lubrication.

Automatic Card Inserter Line-up

[In-line] In-line Automatic Card Inserter LI-310/LI-311

LI-310/LI-311 can be integrated into other packing machines in the production line.

<Inserting Materials>

Cards (square, rectangle, round, irregular shape), Dosage and Administration of medicine (quarto, octavo), mat board, explanatory leaflet, plastic card, telephone card, sticker, leaflet, etc

LI-310/LI-311 can be custom-made to meet your needs.

Please feel free to contact us.

[Table-top] Table-top Card Ejector, LI-100

Compact Table-top Card Ejector

Features

- Counter tells how many cards have been taken out.
- With optional barcode reader and collator, LI-100 can prevent a wrong material from mixing in.
